VOLUME NINE

STONY PLAIN. ALBERTA. THURSDAY. FEB. 7. 1929.

Whole Number 444

Attend Lutheran Services.

(This is the first of the series of articles which will appear in this paper on "The Lutheran Church.")

Four hundred years ago the Christian Church, after a long period of bondage, corruption and inaction, was restored to the new life of liberty, purity and fruitfulness. The act of God by which this revival was brought about is known in history as the Reformation. The instrument through which it was effected was the Word of God; the chief human agency was Martin Luther.

The teachings of the Reformation were not new, but were the eternal truths of God as revealed in the Bible. They have been preserved and are being presented to the world in their entirety by the Lutheran Church.

The Lutheran Church, founded as it is, on the doctrines of the Bible, is not a new organization, not a mere sect, or denomination, but the ancient, original, apostolic Christian Church in its present-day form and appearance.

A Bid For Freedom:

THE trend of business is towards amalgamation and centralization—building up vast organizations through combinations of many small ones. In the face of this development the farmer as a single unit has found himself isolated, helpless and working at a disadvantage.

The first step taken by producers to remedy their position was the formation of producers' co-operatives, of which the Wheat Pool is the most notable example. In the Pool the strength of unity has been demonstrated time and again.

For the protection of himself and his family, and for the advancement of agriculture in general, every wheat producer in Alberta should join the Alberta Wheat Pool.

There is no question but that the Wheat Pool has corrected abuses, narrowed grain trade profits, stabilized markets, and lessened disastrous speculation for the benefit of A.L. wheat growers in Canada.

Undoubtedly the Wheat Pool has paid higher average prices to its members than the Grain Trade has paid to non-Poolers.

The Pool elevator system, operated on a non-profit basis, has given its patrons service at cost, fair weights and grades, and a measure of protection never before accorded.

TO THOSE WHO HAVE NOT YET JOINED THE WHEAT POOL:

ARE you going to build and maintain private grain and elevator systems forever and provide abundant profits for stockholders, year after year?

OR are you going to join the Wheat Pool ranks and work for your own interests and the interest of your Pool neighbors?

The Alberta Wheat Pool
Lougheed Building, Calgary

LOCAL NEWS.

Mr J W Edkins has gone on a visit with friends at For est, Idaho.

Inga M.D. Councillors met in Stony Plain on Friday last. This was the concluding session of the municipal year.

The Band's whist drives proved so popular, there has been a request that these be continued. Arrangements are being made to hold another; this to be held in the Band hall, the evening of Friday, Feb. 22.

Mr August Sherman has returned to Stony, after a four-months' sojourn in the South country.

Mr Zerber, Holden, is in Stony this week.

Const. Crouch of Onoway was a business visitor, Monday, in Stony.

Mr Combs motored his truck up to Edson Tuesday. He is proceeding to Lake Lucerne, where he will harvest ice for the C.N. Ry's commissary department.

In Stony Plain, on Tuesday Jan. 29, to the wife of Mr Ed Sommerfeld, a son.

In Stony Plain, on Monday Feb. 4, to the wife of Carl Enders, a daughter.

Baker Frapp has received numerous inquiries regarding his offer of 100 pounds of bread for 100 pounds of your flour. The offer still holds good.

Stony Plain U.F.A. Local.

The postponed meeting of this U. F. Local was held in the Royal Parlors; Saturday afternoon last, with a good attendance of members present, in spite of the inclement weather. President RC Propp was in the chair.

Delegate P-M Evjen gave a very interesting account of the proceedings at the recent U. F. convention in Edmonton. Some discussion took place on the points touched on, and Mr Evjen was thanked for his very complete report.

When the subject of the Stony Plain Agricultura l Society's annual Fair was mentioned, the meeting seemed unanimously in favor of this yearly fair being revived, and advocated that measures be immediately adopted to bring about this desired result. A resolution passed unanimously that a public meeting be called of all the parties interested in the annual Fair. The meeting to be held in Stony Plain at the first favorable opportunity.

After further routine business, the meeting adjourned.

Card of Thanks.

Mrs Geo Stevens and family wish to thank all their kind friends and neighbors for the sympathy and assistance given, on the occasion of their recent and bereavement.

The Noxious Weeds Menace

This is an age of conventions. They are a natural growth and outcome of the more complex and highly organized development of modern life. They are, too, a recognition of the fact that the principles and methods of co-operation are, in many ways, and to a large extent, replacing the old individualistic ideas and efforts of the past. This is not to say that the value of individual responsibility and initiative has been, or is to be, discarded; rather, that in the age of rapid transportation and communication the old isolation has disappeared and peoples and nations are brought close together. They must, therefore, act as units rather than as distinct and separate entities.

This by way of introduction to a reference to a recent gathering held in Saskatchewan at the call of the Provincial Minister of Agriculture, namely, the first Saskatchewan Weed Conference. It was not a large and spectacular convention as many present-day conventions are, but in the importance of the problem it met to consider, it took second place to none. And while it was a Saskatchewan conference, its deliberations and findings were of equal value to the other prairie provinces.

The conference was summoned in recognition of the fact that weeds are making tremendous headway in Western Canada, and that some action must be taken, over and above the preventive policies of the past, if the inroads of weeds and the consequent enormous loss to the farmers and the country as a whole is to be checked.

The conference was attended not only by officials of the Saskatchewan Government, municipalities and farmers' organizations, but by Dominion Government officials, representatives of the railways, mortgage and loan companies, manufacturers, business men, merchants—in a word, every organization having a vital interest in the productive capacity and prosperity of Western Canada.

It was frankly and unanimously agreed that the whole country must be aroused and organized in a campaign for the destruction and elimination of weeds. The only alternative is a rapidly decreasing agricultural production both in quantity and quality, smaller returns to the farmer, and decreased business and prosperity for all.

The duty and responsibility of the individual farmer in the matter of keeping his own land free of weeds was in no sense minimized, but it was recognized that, human nature being what it is, some men will neglect their duty, and while they themselves suffer as a result of such neglect, they also inflict loss upon their neighbors who are doing their duty, and upon the community and country as a whole.

The need, therefore, for concerted Government and municipal action was emphasized, and the absolute necessity, in the interest of all, for more drastic control recognized.

It was realized that not only must existing weeds be brought under control and eradicated, but that much more efficient measures must be taken and greater precautions observed to put a stop to the sowing of weed seeds and the propagation of the weed plants.

It is not possible in this article to discuss all the phases of this intricate problem, but at this season of the year, when farmers are beginning to think about and plan their work for the spring, one factor may well be stressed. That is, the importance of sowing good, clean seed and not a mixture of grain, good and bad, and weed seeds.

The astounding discovery was made by the seed drill survey conducted in Saskatchewan that 70 per cent. of the seed sown in the province was lower than No. 2, due largely to the inefficient operation of farm farming mills. In other words, while farmers and government authorities on the one hand are fighting weeds, the farmers in the sowing of their crops are planting thousands of bushels of weed seeds.

The first step towards victory over the weed enemy is to put an immediate and definite stop to the planting of weed seeds in prepared soil. If the propagation of weeds is continually carried on and assisted in this way, it must be recognized that the weed menace will grow, and that final victory will rest with it and not with the farmer.

The spring slogan for all Western farmers in 1928 should be: Look to your seed grain. See to it, above everything else, that it is good, clean seed. If weed seeds are sown, it is inevitable that weeds will be harvested. Remember, it is still everlastingly true in farming as in all the activities of life that, whatsoever a man soweth that shall he also reap.

During the World war a person's equilibrium was tested for flying by an elaborate turning chair.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville's. Half a teaspoonful of Nerville's in water makes a most efficient gargle. The germ-killing properties of Nerville's quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerville's. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerville's and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Politics is one of the best investments known. It pays enormous dividends.

Lieutenant-Governor Appointed

J. D. McGregor, Brandon, to Succeed Late Hon. T. A. Burrows

J. D. McGregor, Brandon, has been appointed lieutenant-governor of the province of Manitoba. Mr. McGregor succeeds the late Hon. T. A. Burrows who died in Winnipeg recently. Announcement of the appointment was made by Premier W. L. Macleod King at the conclusion of a meeting of the cabinet.

The lieutenant-governorship was offered Mr. McGregor several days ago, and from his home in Brandon, he announced acceptance of the post, stating that he considered the appointment as a compliment to the agricultural interests of the province rather than to himself personally.

WAS ALWAYS AILING
NEVER FELT WELL

Health Restored Through the Use of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everett Dowe, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be confined to bed. At the very best I was in an ailing condition and found it difficult at all times to do my household work. I was subject to headaches, poor appetite, breathlessness at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines but without any good results. I had become completely discouraged and felt that I would always be an invalid. A friend strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope that they would help, where other medicines had failed. But in this, to my joy, I was mistaken. I had not been taking the pills very long when I knew they were helping me. As I continued their use I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking the pills for several months, when I again found myself a woman, and I believe that I had not been for Dr. Williams' Pink Pills I would to-day be a helpless invalid. The pills have since been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Silver Foxes for Italy

A number of silver foxes have been sent from Canada to ranches in the Italian Alps, where ranching conditions are stated to be ideal, and where the fox farming industry is showing a steady growth.

Exhausted from Asthma—Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is a true remedy which will usually stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

As a molecule of water passes through the pores of your skin it is like a man passing through a gate seven miles wide.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

New Air Service Planned

Air express and passenger service between Winnipeg and United States points will be established within a month on a tri-weekly basis, according to Capt. P. T. McCarty, president and operating manager of the International Airways, Inc., of Seattle. The service will be in co-operation with the Western Canada Airways, Limited.

He—I suppose I'm only a pebble on the shore of your life. She—That is true, but you might stand a chance if you were a little boulder.

Minard's Liniment for the Grippe and Flu.

W. N. U. 1771

Cuticura Soothes
Burning Aching Feet

Bathe the feet for several minutes with Cuticura Soap and warm water, then follow with a light application of Cuticura Ointment, gently rubbed in. For tired, hot, irritated feet this treatment is most comforting. Cuticura Talcum is cooling and refreshing.

Advances New Theory

Baltimore Physician Says Lack of Lime Makes People Irritable

More lime in the diet as a preventive for divorce was urged by Dr. George Walker, addressing the National Housewives, Inc., at Baltimore. Absence of lime, he declared, makes a woman nervous and a man cruel—hence family troubles result.

When there is every appearance of a home being wrecked Doctor Walker suggested that lime, as found in a pint of milk, added to the diet of a couple daily for two weeks in all probability would adjust matters, restore amiability and keep the home intact.

He also would add two oranges a day for each and a quarter pound of cold slaw at least three times a week.

Built To Auto Design

First British Plane of This Type Put on Market

Britain's first airplane to be built to automobile design has been placed on the market under the name of Simmonds Spartan light plane.

The craft has four wings, which are interchangeable in the same way that the four wheels of an automobile are interchangeable. There also is a spare wing which is carried for emergencies.

The new machine is fitted with a four-cylinder, air-cooled engine of 20-25 horse-power. It recently was tested on a non-stop flight from London to Berlin, 620 miles, in six hours.

It Bids Pain Begone—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

When the plumber died his wife took no chances. She buried his tools with him.

Shipping Sets New Mark

New Westminster Exceeds 1927 Record by Forty-five Ships

A new mark in shipping was set at New Westminster during 1928, exceeding by 45 ships the 1927 record of 153. The figure does not include the coastwise shipping, which is handled through the Department of National Revenue. The net tonnage of the ships handled through the harbor commissioners' office was 625,271 tons and the gross 984,388 tons, compared with 483,603 and 776,229, respectively, in 1927.

Protect Your Children
From "Flu," Grippe

A WARNING TO PARENTS!

Flu germs are everywhere today. They reach the system through the nose and throat. Mothers can protect their children in a very simple way.

Take a saucupan of water, place it on a lamp or stove. Add a half teaspoonful of Catarrhoxone to a pint of water, which is brought to a boil. Let the steam from the kettle fill the room so that the medicated air is breathed by the child. This germ-killing vapor disinfects the child's breathing organs and kills the "Flu" germs.

Catarrhoxone Vapor stops cold, prevents Grippe, relieves Sore Throat, prevents Flu. Safe and efficient. Just as good for adults as for children. If you keep the air in your home disinfected with Catarrhoxone Vapor you will be well protected from dangerous Flu, Influenza, Grippe, and Colds. All druggists sell Catarrhoxone in 50c bottles.

New Brunswick's contribution to Uncle Sam's Yuletide celebration included some 3,000,000 Christmas trees—the greatest number ever shipped from the province.

Minard's Liniment prevents Flu.

The Adirondacks contain more than 100 scenic lakes.

Demand

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it isn't! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin;
it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. Write it in blue ink. That is the only way to know the public against imitation. The Tablets will be stamped with their "Bayer Cross" trademark.

Progress Made In Development Of the Hudson Bay Route Shown In Report Recently Published

Up-to-date information on the progress made in the development of Canada's Hudson Bay route is contained in a report recently prepared by the Natural Resources Intelligence Service of the Department of the Interior in co-operation with the Department of Railways and Canals. The objective set on the extension of the Hudson Bay Railway during 1928 was Mile 460, thus bringing the steel within 50 miles of Churchill. Actually the steel reached Mile 462 thus accomplishing all that was expected and leaving only 18 miles to be constructed during 1929 to reach the tidewater terminus.

The mobilization of men and materials and equipment necessary to accomplish the work planned for 1928 on the railway and at the port is dealt with in the report. At the peak of operations during the season it is stated that 2,200 men were employed on the railway. At Churchill the preliminary operations on port development employed 430 men during the season and a feature of the operations was that the work was materially expedited by the use of airplanes which operated between Churchill and the end of steel.

The report points out that the visit to Churchill of Frederick Palmer, eminent British engineer, which resulted in the selection of that port as tidewater terminus, was made in August, 1927. In a little more than a year from the date of Mr. Palmer's report, the railway had been advanced 106 miles from the point at which the Churchill extension leaves the original line to Nelson at Mile 356. In the operations of 1928 the equipment used on the Hudson Bay Railway work included three steam shovels, a track-laying machine and 12 locomotives.

The past summer was a very busy one at Churchill in the construction of temporary docks and the commencement of permanent construction. During the navigation season some 16,000 tons of material sent in by sea from Halifax and Sydney were unloaded at the new port and the dipper dredges, "Churchill No. 1" and "Churchill No. 2," built at Montreal especially for the work, appeared on the scene as well as the hopper barge "Chesterfield." A second hopper barge was also towed from Port Nelson to Churchill and added to the equipment. The arrival of the dredges clears the way for an early start on extensive development this year and large supplies of materials are now on hand for prosecuting the work.

Up to March 31, 1928, there had been expended on the work at Churchill, \$597,950 and during the present fiscal year to Nov. 30 there had been a further expenditure of \$2,561,000 making a total of \$3,458,950. The expenditure on the Hudson Bay Railway up to March 31, 1928, is given as \$20,790,248 and since that date up to Nov. 30, the report states, an additional \$2,006,000 had been expended, a total of \$23,386,248. The expenditures on the railway and port during the 1928 season alone exceeded five million dollars. The cost of the railway, exclusive of ocean terminals, when completed it is estimated will be in the neighborhood of \$28,500,000.

The development of the ocean terminals will account for an expenditure of many millions more and

other work in the development of Canada's northern transportation route includes the establishment of modern aids to navigation in Hudson Bay and Strait. The aerial expedition established by the Department of Marine and Fisheries at three points on Hudson Strait in 1927 continued its reconnaissance until late in 1928 and much useful information bearing on navigation was secured. As a result strategic locations for aids to navigation are being selected and these will include direction-finding devices which will be of invaluable assistance to navigators in those northern waters.

The report on "Progress in Development of Canada's Hudson Bay Route" reviews the history of the development of the Hudson Bay transportation scheme and includes a consideration of its economic aspects and of the mileages involved in the new rail and water route from various centres in western Canada to Liverpool. The report in mimeographed form is available on application to the director, Natural Resources Intelligence Service, Department of the Interior, Ottawa.

The Careful Ones Pay

Higher Car Insurance Rates Prompted by Number of Accidents

Motorists throughout the prairie provinces will learn with interest, perhaps with something of a feeling of dismay, of the 27 per cent. increase in motor car insurance rates in these provinces.

The increase does not apply to fire or theft, but has been prompted chiefly by the growing number of collisions or accidents of other sort, and is due to representations of the insurance agencies that they have either been losing money or else have been making inadequate profit. There is nothing for motorists who insure their cars—and the great majority of them do—to do but to pay the increase, but it is essentially a case of careful motorists being made to pay for the carelessness of some of their fellow drivers. The announcement of the Western Canada Underwriters' Association should add zest to the campaign for safety in the streets and on the roads and highways. Many of the accidents in which motorists figure are wholly inexcusable.

Aunt Betty (reading nursery rhyme)—"The cow jumped over the moon." Do you believe that?

Modern Child—"Certainly not. That attitude record was never officially authenticated by the A.A.U."

Phyllis—"Why are you steaming open that letter so carefully?"

Freda—"Oh, I've had a quarrel with Frank, and I want to see what he has to say before I return his letter unopened."

Step-In Combination

The well-bred woman demands dainty underwear that is practical at the same time. Style No. 794 will wear indefinitely made of good quality crepe de chine, batiste, voile, heavy georgette crepe, radium silk or flat silk crepe. The two-piece camisols with straight outline across the top, perforated to be trimmed with lace banding, has attached drawers with opening at center-back. It is especially easy to make, and only requires 1 1/2 yards of 40-inch material with 36-inch size. Pattern comes in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Price 26 cents in stamps or coin (coin preferred).

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Fashion Magazine, showing all the most attractive Paris styles, embroidery, etc.

Farmer—How's your rheumatism this morning, Lucyndy?

His wife—It doesn't bother me at all this morning.

Farmer—That's too bad. We need rain terribly for the crops."

Channel Tunnel Scheme Between England and France Has Once More Been Revived

Planes Return From North

Machines Cover 8,000 Miles in Search for Minerals

After an epoch-making flight into the barren lands, where air trails were blazed across the bleak wastes of the sub-Arctic in an aerial search for minerals, two cabin aeroplanes of the Dominion Explorers, Ltd., were brought to Winnipeg from The Pas by Capt. B. W. Broatch and Capt. S. McMillan.

While in the north the 'planes were in charge of Capt. Charles Sutton, former Royal Air Force aviator and mail pilot on the Cairo-Bagdad route, and Captain Broatch, pioneer of the air trails of the frontiers of Canada. They made their base at Mistake Bay, about 130 miles south of Chesterfield Inlet.

The planes were taken into the north country by Captains Sutton and Broatch early in the summer, flying the machines in a long hop from New York to Hudson Bay. Two Moth 'planes also were used by the exploration party in the barren lands.

During the season the cabin machines covered more than 8,000 miles between them without mishap. Many of the flights over the barrens were beset with dangers, but the pilots dared the hazards of an unknown land, immeasurably aiding in the quest of rich minerals.

The main party of the expedition came south some weeks ago, but will return to the barrens in March.

Jap Living Standard Low

Large Per Cent of Workers Receive Less Than Fifty Dollars Monthly

That the living standard of most Japanese is still far below that in western nations is emphasized in a report by the ministry of finance. These figures show that 93 per cent. of the wage earners of Japan receive less than \$50 a month. There are 12,000,000 registered families in Japan, and in only 6 per cent. of these is the total income between \$50 and \$200 a month. The percentage of those getting more than \$200 a month is 13.

The contrast to the American standard may be appreciated when it is realized that the absolute minimum for a family of four or five, according to western custom, is in the neighborhood of \$300 a month. Living expenses in Tokyo for the foreigner are acknowledged to be as high as any place in the world. The Japanese, however, must subsist largely on rice, fish and a few pickles. There can be very little expenditures for even such luxuries as heating.

Nothing angers a woman more than a man who refuses to lose his temper.

An informal poll of the British House of Commons by Sir William Bull is said to show that an overwhelming majority of the members favor the many-times-suggested English Channel tunnel.

An even more fascinating proposal than the 60-year-old project for the tunnel, also now under discussion in England, is a 21-mile channel bridge. From it travellers who have suffered the tortures of channel sea-sickness could laugh at the churning waters that caused them misery.

A channel bridge scheme was outlined, 40 years ago. Competent engineers claim such a structure feasible.

But British military strategists, arguing for national security, have violently opposed the bridge project as well as the more practical tunnel through all the decades of discussions.

The question to be decided is whether the great war altered England's isolation as a tight little island. Those who favor the tunnel say Britain is directly open to attack from the air and to siege by submarine. If they can convince the military strategists of this, the tunnel project will at last enter the field of practical politics.

Political rather than engineering difficulties always have blocked the channel tunnel.

A channel tunnel, by cutting out the steamer, would save an hour and a half on the trip from London to Paris.

France never has opposed the project, for with traditional enemies just across long frontiers, an undersea tube which could easily be blocked or even destroyed in case of war, presents no terrors.

Commercial companies exist both in England and in France to carry out the tunnel scheme, the cost of which is estimated at \$150,000,000.

Proved Good Neighbors

Iowa Farmers Cleared Blocked Roads to Let Doctor Through

Critically ill with influenza, Harvey Northey, residing on a farm outside of a small settlement in the state of Iowa, was unable to reach a doctor. Five miles away a physician stood ready to go to the stricken man's bedside, but was separated from him by snowbanks 12 feet high. This was the information conveyed by telephone to one of Northey's neighbors.

In short order 11 other neighbors gathered together with tractors, snowplows and hand shovels and dug an opening in the snow for the doctor to get through. These men, facing a 60-mile wind, cut through five miles of road and removed hundreds of tons of snow. The doctor was able to administer treatment that has placed Northey on the road to recovery.

Deeds such as this may not be preserved for posterity as are heroic deeds on the battlefield, bravery at sea, or triumphs of the air. But they are in every sense of the word heroes of the first water.

There will never be a decrease in the price of mistakes even though they are made in larger numbers!

At least two-fifths of England's diet consists of bread.

"You will never get permission to kiss me, and if you use force you will have to stun me first. The chloroform is on the shelf in the bathroom, first door on the left." Kariakuren, Oslo.

JOLLY TARS IN HORNPIPE ROLL

Only they are tar-cases, as it were, and these pretty maidens gave a massed hornpipe, as shown above, at Vancouver's first Sea Music Festival held January 23-26 at the Hotel Vancouver in that city under the auspices of the Canadian Pacific Railway. Miss Mary Isdale (centre) presented the dance and also arranged others for the festival.

"Ah, when he died he was such a beautiful yellow."

"Did your husband die of jaundice, then?"

"Not my husband—the canary!" Pages Gales, Yverdon.

Sale For Worthless Horses

Montana Packing Plant Will Require
Seventy Head Daily

Surplus range ponies which now are more or less worthless, may find a market at the horse meat packing plant just opened in Grand Falls, Montana. Southern Alberta has hundreds of nondescript range horses roaming the prairies, eating up valuable grass and the Great Falls plant may be in a position soon to handle many of these animals for it will require 70 head daily. The output will be shipped to Continental Europe where horse meat is a staple commodity.

**NO MEDICINE LIKE
BABY'S OWN TABLETS**

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says: "We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25c a box from "The Dr. Williams' Medicine Co., Brockville, Ont."

Discovers New Island

Commander R. E. Byrd in a flight over King Edward VII Land discovered a new island and 14 peaks according to a radio message from the Byrd South Pole expedition copyrighted by the New York Times and the St. Louis Post Despatch.

Use Minard's Liniment for the Flu.

It is not doing the thing we like to do, but liking the thing we have to do that makes life blessed.

Chemists are now trying to make artificial cotton from wood fibre.

Nervous and Run Down

**The Least Noise
Would Bother Her**

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so."

"A friend advised me to take

and after taking two boxes I began to feel stronger, lost better and the color came back into my cheeks and now I am feeling fine again."

Price 60c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1771

**WORLD HAPPENINGS
BRIEFLY TOLD**

The freighter Port Curtis arrived recently at Halifax from Auckland with more than 5,000,000 pounds of New Zealand butter, a record cargo.

The Rockefeller foundation has donated \$85,000 to McGill university for medical research to be paid over four years.

A treaty between the United States and Japan to aid in the prevention of smuggling of alcoholic beverages into the United States has been ratified by the senate.

Leon Trotsky, whose opposition to the policies of the Soviet's leaders in Moscow caused his expulsion from the Communist party and his exile in Turkestan, was en route to Constantinople, it was revealed in authoritative advices received at London.

**CORNS
Relief in 2 Minutes**

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this corn remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Mendicancy De Luxe

Young Englishman Simulating Pauper Collected Large Sum Daily

In the opinion of G. K. Chesterton, complete social equality in England will not be achieved until a coster-monger may wear a monocle without exciting remark. It would be interesting to have his comment on the discovery by the police of a professional beggar with a valet. A young man, only 23, he was busily engaged in putting Mr. Ford's doctrine into practice and spending his easy earnings in ways which he thought to his advantage when the authorities evinced an acute curiosity concerning the source and extent of his finances. A country house, with completely equipped billiard room, is one of his luxuries. His income, produced by simulating pauper, has amounted to as much as \$100 in a day. Subway travelers, observing his pathetic figure, have been deeply touched—for sums from 10 cents upward. The interruption of this enterprising mendicancy activities, just at the threshold of the prosperous holiday season, must have been especially bitter.

**LONG SLEEP MAKES
BABY HAPPY AGAIN**

"Our baby kept waking us several times a night until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better." Baby specialists endorse Fletcher's Castoria; and millions of mothers know how this purely vegetable, harmless preparation helps babies and children, with colic, constipation, colds, diarrhoea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

Should Procure Oat Seed

Farmers of Alberta are being advised by the Provincial Department of Agriculture to make the necessary provision for securing the supply of oats for seed which they will require for their 1929 crop. The effects of frost in a number of districts are reflected in a reduction in the germinating quality of a great many of the oats threshed.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

Vancouver Port Improvements

The Vancouver Harbor Board is understood to be seeking federal permission for launching a construction program involving \$5,000,000 of port improvement. The proposed works include a deep-sea pier, the first unit of a cold storage plant, a coastwise pier and extensive additions to the present grain storage capacity of the port.

Minard's Liniment for Coughs and Colds.

CHLAINS

Zam-Buk soon slays the inflammation and swelling of the throat, soothes the burning irritation, while skin is broken, cures ulcerated Zam-Buk is the great healing and antibiotic agent.

Last Word in Cruisers

Germany's Latest Ship Makes Prospect of Other Countries Obsolete

According to the description which Hector C. Bywater, the Baltimore Sun's special correspondent gives, the new German armored cruiser Ersatz Kreuzer is a triumph of concentrated power. Keeping within the narrow limit of 10,000 tons for armored ships imposed upon her by the treaty of Versailles, Germany has constructed a ship which has the fighting effectiveness of a dreadnought, the speed of a cruiser and the hitherto unheard-of cruising radius of 10,000 miles. In addition, the new cruiser has other novel features which add immensely to its strength, and altogether it represents a production that tends to make the latest ships of other countries immediately obsolete.

**How Best to Use
Vicks VapoRub
After the Flu**

Late Winter Colds Are Don't Don't Get a Start

AVOID PNEUMONIA OR A SECOND ATTACK OF FLU

If you catch a fresh cold, don't keep it overnight. If possible, go home and go to bed. Take a laxative and hot lemonade, apply hot wet towels over throat and chest until the skin is thoroughly reddened. Rub vigorously with Vicks Spread on thickly and cover with warm band.

Leave the bed-covering loose, so that the vapors, released by the body-heat, may be freely inhaled. At the same time, Vicks acts through the skin like a poultice. Repeat this treatment every four hours, at night, and stay in bed until the cold is broken. Complete rest helps the body throw off the cold more quickly.

Mothers especially appreciate Vicks for the children. As it is applied externally, it can be used freely and often, without upsetting delicate digestion, as too much "dosage" is so apt to do.

Skiping Motor Age

China Is Now Turning Her Attention to Aviation

China, if the signs are read aright, is about to "jump" the automobile age and pass direct from the bullock cart and railroad to the aeroplane and all that it embraces. This is not to say that motor car manufacturers may not find a lucrative field in the 18 provinces which comprise China proper, for the automobile is making inroads there; but it is almost certain that before the motor vehicle has become to the east what it has become to the west, aviation will have found acceptance as a common means of conveyance.

For Sores or Burns.—Dr. Thomas' Electric Ointment is a standard remedy for the prompt treatment of sores and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pain arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

The longest telephone call in the British empire is now from London to Vancouver, a distance of 7,000 miles. The charge is about \$10 a minute.

Miller's Worm Powders will eradicate the worm evil, that besets so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

SUNDAY SCHOOL LESSON

FEBRUARY 10

REPENTANCE AND FAITH

Golden text: Repent ye, and believe in the gospel. Mark 1:15.

Lesson: Isaiah 1:10-20; Ezekiel 18:20-23, 27-29; Mark 2:1-12; Luke 3:1-14; 15:11-24; Acts 2:32-39; Hebrews 11:1-10.

Devotional reading: Psalm 27:1-5.

Explanations and Comments

Jesus Is Sovereign and Messiah, Acts 2:14-36—Peter is speaking to Jews, and his first object is to prove that Jesus fulfilled Old Testament prophecies and expectations in regard to the Messiah, hence he tells them (verses 15-21) that the events of Pentecost which had so amazed them are but the fulfillment of Joel's prophecy (Joel 2:28-32), that at the coming of the Messiah God's Spirit would be poured forth, and old and young, men and women, bond and free, would see visions and speak divine truths.

Then Peter takes up his great theme that Jesus is the Christ, and gives three proofs. First, there are the miracles which his hearers had themselves witnessed. Second, there is the resurrection, of which they all are witnesses: God had raised Jesus from the dead to higher life and wider power. Third, there is the pouring forth of the Holy Spirit at Pentecost, which they have seen and heard: Jesus still lives and cares for His followers, for it is He who has sent the Spirit. Furthermore, the resurrection and exaltation fulfill a prophecy of David, as given in Psalm 110:1.

The Lord said unto my Lord, sit thou on my right hand,

TILL I make thine enemies the footstool of thy feet.

Two different Hebrew words for Lord are used in the first line, and the meaning is, Jehovah said unto the Messiah. David could not have been speaking of himself, for David did not ascend into the heavens. "Sit thou on my right hand" means, Be partaker of the divine glory and dominion. "Till I make thine enemies the footstool of thy feet" is an expression denoting complete victory, which originated, no doubt, from the ancient custom of conquerors putting their feet on their enemies' necks.

Then comes the climax of Peter's sermon: "Let all the household of Israel therefore know assuredly that God hath made him both Lord and Christ, this Jesus whom ye crucified."

"Are there any questions?" "Yes, sir. "How do you calculate the horse-power in a donkey engine?"

COMPLEXION IMPROVED

... QUICKLY

CARTER'S LITTLE LIVER PILLS

Get rid of that pasty, sallow, blotched complexion! Instead of spending many dollars on fancy creams and skin lotions, buy a 25c box of Carter's Little Liver Pills and remove the constipation poison. Your skin will be quickly cleared, and your health improved. All Druggists 25c and 75c red pigs.

FOR SALE—Fully equipped farm of seven quarter sections in the Leader district. \$5,000.00 will handle; balance half crop payments. Owner retiring. Apply to S. W. Keelen, Leader, Sask.

Alberta's Farm Wealth

The Calgary Herald says that in 1906 the Province of Alberta had a farm wealth which was estimated at \$50,000,000, while in 1927 it had jumped to \$338,161,458. And while it produced about 6,000,000 bushels of wheat in the former year, in the latter it yielded 162,000,000 bushels. We wonder what 1947 will show!

FLU

Claims Many Victims in Canada and should be guarded against.

Minard's Liniment

Is a Great Preventative, bring one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Croup, Bronchitis, Sore Throat, Asthma, and similar diseases. It is an Enemy to Germs. Thousands of bottles have been sold every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Vancouver, N.B.

A Real Literary Find

The New York Times says that one of the greatest rarities in United States literature, a first edition of Edgar Allan Poe's "The Murders of the Rue Morgue," has been found in a pile of old books which a second-hand dealer bought for a trifle.

Before news of the discovery became public, however, the volume was bought for \$25,000 by a New York book collector.

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection.

Scott's Emulsion

abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

RIVALRY SEEN BETWEEN ITALY AND FRANCE

Toronto.—The Mail and Empire publishes the following special cable from Paris:

"A factor in the world naval situation which hitherto has been obscured by Anglo-American discussion of the limitation of naval armaments is the growing rivalry between France and Italy in the Mediterranean, as reflected in their building programs. For the first time much prominence is being given to this subject here and it may fairly be suspected that the British 'navy' party is preparing to counter any suggestions for a naval holiday with the United States by pointing to the danger to British interests in European waters as necessitating more cruiser building.

Hector J. Bywater, well known naval expert in a column article in the Daily Telegraph analyzes in startling terms the French-Italian building race and speaks of the Mediterranean as "one of the main arteries of our empire."

"No neutral can hope to conduct business as usual in a zone of active warfare," he finds proceeding to pile up statistics intended to prove his contention. "That France and Italy are now in open rivalry for strategic control of the Mediterranean is the only possible inference to be drawn from recent developments."

Secures Desired Land

Veteran of C.E.F. in Siberia Files on Peace River Homestead

Peace River.—After waiting from Friday, January 18 until Monday morning, January 28, G. Turcotte, Father, was successful in securing the land of his choice, a homestead in the Falher district that had been under lease but recently was thrown open for filing. Ten days of terrible sub zero weather with the thermometer ranging from 30 below during the day and down to almost 50 during the long nights he endured.

Turcotte did not have it all his own way for Corporal McDonald of the mounted police was on hand to prevent disorder. He ordered Turcotte to remove his hand from the door knob so that the door could be opened. Another man was on hand to guard the door and secured it while the door was opening, but Turcotte was in the most favorable position and squeezed in first.

Studying Aircraft Device

Demolition Government May Establish Direction Finding Apparatus Service

Ottawa.—For the purpose of ascertaining what the United States is doing in the field of direction finding for aircraft by radio, Maj. W. Arthur Steel, one of the senior officers of the signals service, department of national defence, has gone to Washington, New York, and other points, to obtain information for Canada. Direction finding apparatus has been used to advantage in the operation of aircraft in several countries and the Canadian government is considering establishing such a service in the Dominion.

Has Remarkable Record

Winnipeg.—John McDougall, veteran sergeant-at-arms of the Manitoba legislature, is in indifferent health at present, and for a second time in half a century may not be well enough to attend the opening of the house on February 11. Last year he was ill too, and it was the first time in 50 years that he was unable to carry the mace on an opening occasion.

World's Largest Theatre Sold

New York.—The Hippodrome, the world's largest theatre, has been sold for approximately \$6,000,000. Although the purchaser, Frederick Brown, a real estate operator, would not disclose his plans, it was indicated that he had a new project in mind for the site, and that the theatre might be razed.

W. N. U. 1771

Aid For Civil Aviation

Flying Clubs Will Be Given Thirty-two New Planes This Year

Ottawa.—Thirty-two aeroplanes will this year be given flying clubs by the government. It is estimated by flying officials in the national defence department.

Besides leasing two machines to each newly-formed organization, one extra machine is given for each one which the club members purchase themselves. The 16 clubs already in operation are each expected to buy a machine this year.

There are over 150 flying pilots in Canada with seven years' experience in the air, according to figures compiled by the national defence department in connection with applications now being received by the civil service commission for two positions as inspectors of civil aviation.

There is one vacancy at Ottawa and one at Regina. These are additions to the staff occupied by the development of aviation. At present there are three inspectors. Their duties include the examination of prospective pilots, testing of machines for airworthiness and choice of locations for airbases.

Doukhobors Found Guilty

Ringleaders in Clash With Police Receive Jail Sentence

Grand Forks, N.C.—Eight Sons of Freedom, Doukhobor religious fanatics, were sentenced to serve six months each for obstructing police officers. They were found guilty by John A. Hutton and John M. Donaldson, justices of the peace. The fanatics offered no defence.

The fanatics were arrested and charged following a clash with 14 provincial police officers and 10 appeals who sought to arrest Strepnikoff and Wolken, wanted for infringement of the School Act. The Sons of Freedom attempted to prevent the arrest of their leaders, but were overcome by tear gas bombs.

Peter Veregin, Doukhobor community head, reported to have testified in these actions, was engaged in a marketing act trial. He did not figure in the case.

Parley On Import

Preference Likely

But Reports Presented by President Coolidge Not Yet Received

Ottawa.—At the department of external affairs, it was stated that the reports presented by President Coolidge to congress on the subject of customs preferences on imports through Canadian ports have not yet been received. No diplomatic representations based on them have yet been made. The United States minister in Ottawa, however, brought the general situation to the attention of Premier Mackenzie King some weeks ago.

As President Coolidge informed the United States senate that diplomatic negotiations would begin with Canada on the matter, it is anticipated that there will be representations in the near future.

Plans Branch Line in B.C.

Nelson, B.C.—Notification to the public of its intention to apply at the coming session of parliament for charter rights to build a railroad link from Kootenay Landing to Proctor, B.C., is announced by the Canadian Pacific Railway in a statutory notice. The notice issued from Montreal under date of January 29, is signed by E. Alexander, secretary.

Appointed Vice President

Winnipeg.—R. S. Law, formerly of Claresholm, Alta., has been appointed to the board of directors and to the position of first vice president of the United Grain Growers, Ltd. It was announced here by Hon. T. A. Cresser, president of the company. Mr. Law succeeds C. Rice-Jones, who held the position for the past 11 years and who resigned to enter business in his own right.

Would Try New Stunt

Detroit, Mich.—Gene Lausser, who dropped over Niagara Falls in a rubber ball July 4 says he will jump off a new 46-story building here for \$25,000, with a pair of wings of his own design.

SAYS CANADA TOO KEEN

Senator Walsh of Massachusetts is waging a campaign in congress to show the United States the amount of trade which Canada is winning from the republic. He expressed the opinion that Canada was too keen and is rapidly outstripping the United States.

Figures Show Slight Increase

Twelve Per Cent. Advance in Immigration to Canada Last Year

Ottawa.—Immigration to Canada continues to show a moderate increase over that of a year ago, the total for nine months of the fiscal year up to and including December being 144,113 compared with 128,928 for the same period in 1927. The increase is 12 per cent.

The total immigration of December amounted to 5,515 compared with 4,566 in December, 1927, an increase of 21 per cent. The month's immigration included 1,476 British, 1,544 from United States, 24 Belgians, 50 Danish, 99 Dutch, 204 Finnish, 31 French, 454 Germans, 44 Norwegians, 75 Swedish, 15 Swiss and 1,499 of other races.

Of the 144,113 immigrants who came to Canada in the last nine months 82,257 were of the farming class and 14,199 were female domestic servants.

London Awaits News

Announcement of Duke of Gloucester's Engagement Expected Shortly

London.—The Daily News said it understands that the engagement of the Duke of Gloucester, formerly Prince Henry, third son of King George, would be announced shortly. The newspaper said it was believed the duke was engaged to Lady Angela Scott, daughter of the Duke and Duchess of Buccleuch.

The Daily News understood that the announcement had been delayed because of King George's illness.

CANADIAN IDEAS IN JAPAN

When K. Hashima, superintendent of rolling stock and machinery of the Sapporo district, Japanese Government Railways, was in Canada recently studying the operations of the Canadian National Railways for the benefit of the people of his own country, he was particularly interested in the methods used in clearing snow from the track. In a letter to W. A. Kingsland, in general manager of the National system's western region, Mr. Hashima expressed his thanks for the co-operation given him by A. H. Eager, gen-

Spectators Thrilled By Parachute Jump

Two Winnipeg Airmen Brave Wind and Below Zero Weather

Winnipeg.—Braving a high northwest wind and 15° below zero weather, Flight Lieut. A. Carter and Sergt. Joe Maskell, of the Royal Canadian Air Force, thrilled 200 persons at Stevenson Aerodrome by jumping from aeroplanes with parachutes at a height of 2,500 feet.

The feat is unique in Manitoba and perhaps in Canada, considering the weather conditions.

Carter landed in a clump of trees two miles east of the point where he jumped, and a group of airmen had to rescue the parachute from the branches. Maskell also was carried far afield.

Carter's jump was the 36th of his career. He holds the record for parachute jumpers in the British Empire, having made a leap of 29,000 feet at High River, Alberta, in November, 1925.

Plan Being Endorsed

National Day of Thanksgiving for Recovery of King Is Urged

Vancouver.—A movement emanating in the province of Quebec to hold a national day of thanksgiving throughout Canada for the recovery of his Majesty King George from his recent illness, and which it was stated has the endorsement of Premier Taschereau of Quebec and other prominent men of that province, was wholeheartedly supported by Mayor W. H. Malin and the Vancouver city council.

Winnipeg.—Endorsement of the plan to hold a Dominion-wide day of thanksgiving for the recent recovery to health of His Majesty King George was given by Mayor Dan McLean of Winnipeg.

Submits Request To League

China Wants to Protect Her People Against Opium Evil

Geneva.—The opium evil was made the occasion for another plea by China, for the right to police its own territory irrespective of the nationality of offenders. Wang King-Ki, chief representative of his country at Geneva, submitted that it was impossible to separate the narcotic and political questions so long as China was not free to protect her own people against the acts of nationals of other powers.

Carpenter Electrocutured

Winnipeg.—William Jardine, 26, a carpenter, was electrocuted at the substitution of the Winnipeg Electric Company near Schirke, Man., when his saw came in contact with a high tension wire.

TRAFFIC VIA CANADA'S PORTS NORMAL FACTOR

Washington.—Discriminatory tariffs against goods imported into the United States via Canadian ports is recommended by only one out of three government departments which reported to the senate on the diversion of United States commerce to Canadian ports. The other two found that the movement of United States imports and exports through its neighbor's ports was caused chiefly by the normal factors of international trade and transportation and nothing much could be done about it except to discuss with Canada through diplomatic channels the possibility of putting United States ports on an equal basis with Canadian ports on imports into Canada.

The majority report which remarks at the outset that Canadians are just as much concerned over the movement of Canadian export grain through United States ports was made by the departments of agriculture and the Interstate Commerce Commission. It was unanimous.

The minority report was made by the United States shipping board which opened at a study the shipping acquired by the United States government during the war. The tone of the two reports is sharply contrasted. The majority quotes statistics to show that 27 per cent. of all Canada's exports travel through United States ports while only five per cent. of United States exports travel through Canadian ports.

Coast Wants Orient Trade

Would Gain Larger Share for Canada, Says T. S. Dixon

Ottawa.—Canadian boards of trade from the Atlantic to the Pacific are interlocked in such a way as to assure immense benefits for national commerce and fruitful results from their co-operative labor, said T. S. Dixon, president of the Vancouver Board of Trade in an address at the 72nd annual meeting of the Ottawa Board of Trade.

Within the next two years, Mr. Dixon declared, Vancouver would lead an expedition of Canadian business men into the Orient in an attempt to further increase the privilege of the Dominion in the Far East and gain a larger share of Oriental trade for the manufacturers and producers of Canada.

Manitoba House To Open February 11

Will Proceed to Take Up Business Without Usual Adjournment

Winnipeg.—The Manitoba legislature will go into session Monday afternoon, February 1st at 3 o'clock. An order of the council fixing this date was signed by Hon. J. D. McGregor, shortly after being sworn in as lieutenant-governor.

The house will proceed with the business before it immediately after the formal opening ceremony and the reading of the speech from the throne by the new lieutenant-governor. This will be a departure from custom previously followed.

Will Not Compete

Toronto, Ont.—The ladies' high jump which was on the program of the Meines games at New York, February 9, has been cancelled, according to a wire received by Miss Myrtle Cook. The wire said exhibitions were not permitted at these games and that Miss Ethel Catherwood has been notified to this effect. This means that Miss Catherwood will not compete in New York.

May Send Minister to States

Washington.—Negotiations for the exchange of diplomatic representatives between the United States and the Union of South Africa, were said, at State Department, to be under way. South Africa would be the third entity of the British Commonwealth to appoint a minister to Washington. Canada and the Irish Free State are the other two.

(295)
A skin game—Two young boys
living 90 miles northwest of Ed-
monton started a coyote farm in 1927
by dissecting young coyotes out of
the ground and confining them in
a pen. They got 140 young animals
and when their skins were mature
sold them for \$12 each.

A southern packing plant special-
izes upon horse meat for shipment
to parts of Continental Europe
where it is very popular. It has
been suggested that the nondescript
range horses straying about North-
ern Alberta be herded for packing
purposes. It is a pity someone
could not figure out a similar way
of consuming some of the old motor
cars that are loose on the high-
ways.

Twenty oil burners measuring
overall 97 feet in length and weigh-
ing 725,000 pounds have been order-
ed by the Canadian Pacific Railway
and will be in passenger and
freight service through the moun-
tains this summer. Each of them
will do the work of two or more of
the lighter locomotives. They are
the largest in the British Empire
and will revolutionize transporta-
tion in the west. It is predicted.

Victoria is having a mild winter
golf tournament open to members
of the local clubs and to guests of
the Empress Hotel, and the players
won't have to play in mittens and
fur coats, either. In the east they
have a game called winter golf that
they play with bow and arrows on
skies or snowshoes, but the golf
at Victoria is the legitimate article.
The game is played the year round
in the equable climate of the Pacific
coast.

Unique and luxurious cars, differ-
ing from anything operated in this
country before, will be carried by
the two crack trains of the Cana-
dian Pacific Railway, the Trans-
Canada Limited and the Montreal,
Toronto and Vancouver, and the
Mountaineer, from Chicago to the
Pacific coast. It has been announ-
ced. The cars will have bath
rooms, valet service, lounge and
smoking space, and a solarium,
with vit-a-glass windows.

The sea is constantly provocative
of tales of adventure. A recent
tale is that about Commander
S. Robinson, C.D.R., of the
Canadian Pacific liner Empress of
France who turned his ship into the
face of a hurricane and went 500
miles out of his course to take aid
to injured seamen on a storm tossed
Japanese freighter. The great liner
waited beside the freighter, which
had been badly battered by the
huge waves and some members of
whose crew had been injured, but
found it impossible for boats to
pass between the two ships to ren-
vey a doctor. After waiting for
half a day the master of the Japa-
nese ship reported that he could
make port, and the Empress of
France continued on her interrupt-
ed voyage.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude herbs. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

CHAPTER XIII.—Continued.

"Isn't it beautiful?" He indicated with a sweep of his arm the lake, the wooded hills and the glittering glaciers lifting their heads high to the sparkling firmament. He turned to find his companion standing with downcast eyes.

"Don't you like it?" he asked, a trifle resentfully.

Janet raised her head slowly. The limpid depths of the big brown eyes were soft and languorous in the half-light; the full red lips were dewy and tremulous; the peaceful light of the moon shone upon her radiant upturned face, giving it an ethereal glow.

"It is wonderful," she breathed.

Involuntarily he moved closer. What was this inner urge? Love—feeling—emotion, or it might be, passion?

Laughter and voices came from the trail above. Douglas with several of the visiting party emerged into the white light of the moon. Douglas called his sister's name and Janet and Donald moved up the hill to join them.

CHAPTER XIV

A week before Dominion Day men began applying for leave of absence until the exodus depleted the crew to such an extent that it was deemed advisable to shut down for a week. Donald turned to Gillis as he saw the whole crew of "redshirts" pile tumultuously on the train.

"How often do the men quit like this?" he asked rather irritably.

"Every holiday," replied Gillis. Donald pondered a moment.

"That means that we may lose a week for Labour Day."

"Very likely."

"Jack, do you think we could keep them here if we held some sort of celebration at the lake?"

"I believe we could," responded Gillis warmly.

"We'll do it then," declared Donald.

"We've so many orders ahead

W. N. U. 1771

A committee of four men waited on Renwick and presented an ultimatum. They demanded a heavy increase in wages, or they would call for an immediate cessation of work on the part of the men they represented. Renwick promptly refused. In 15 minutes every man in the mill except the electrical staff, the mechanics and the engineer, walked out. In the woods only Gillis' "redshirts" remained at work.

The strikers moved up the track and made camp on a point of land on the lake shore. That night the door of the commissary was pried from its hinges and a quantity of food stolen, and the night watchman put out a fire of incendiary origin.

Renwick, while returning from the power house, was shot at twice from ambush. He wired his resignation to Robert Rennie, and in terrified haste packed his belongings and left on the next train. An hour later the agent brought Donald a telegram:

"Donald McLean,
"Summit Mill.

"You are promoted to position vacated by Renwick. Refuse strikers' demands. Ship at Squamish Oriental order-white pine. Utmost importance lumber loaded within week. Use every means in power to keep plant operating."

"Robert Rennie."

He passed the message to Gillis. The big man turned and grasped Donald's hand in congratulation. "We'll get that order out on time or bust," declared Gillis grimly.

Donald distributed firearms among his loyal men, and one-half the crew departed the plant while the others slept.

Donald had been up the greater part of the night, and at Gillis' earnest request he went to his cabin near midnight. As the door closed behind him, Connie, with her rifle resting in the hollow of her arm, rose silently from behind a tree in the darkness of the hillside and flitted noiselessly on moccasined feet from stump to stump. Unseen she reached the corner of Donald's cabin, where she sank to the ground with the soft, slow grace of a nesting bird.

The Cheekams' Mill, robbed of man-power, was forced to cease operations. At the Summit Mill work went on with quick speed as in the situation Donald was able to induce in the men, who were on edge. To him it seemed that they were working on top of a powder mine that might go off at any moment. He discovered in himself a faculty to handle men and to raise them to a fever pitch of enthusiasm—not that

400,000 Women Report Benefit by actual record

"Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

A questionnaire enclosed with every bottle of medicine has brought, to date, over 400,000 replies. The overwhelming majority—in fact, ninety-eight out of a hundred—says, "Yes." If this dependable medicine has helped so many women, isn't it reasonable to suppose that it will help you too? Get a bottle from your druggist today.

the B. C. logger is a hard man to lift to the fighting point. His fight against great odds had gained the sympathy of the loyal—a sympathy and respect that money could not buy. Gillis' gang, with the exception of "Blackie," remained fervently faithful.

Tolling in the hot sun, nearly blinded by sweat, stung hastily, this gallant crew worked their 12 hours without a murmur of complaint. Donald lived on the job, ate on the job, and all day long he drove his men even as he drove himself. His rest consisted of such fitful snatches of sleep as he could steal between his rounds of the night guards.

The first move of the strikers was not of open violence. The haul-back on two of the donkeys broke without apparent reason; one of the big saws had been tampered with; Wilkinson reported two fires of incendiary origin, and also that an attempt to dynamite the power-house had been frustrated.

On the third morning Hand, at the head of a mob of 50 men, made a swift descent on the lumbering operations. It might have been successful if Donald had not expected something of this kind and set efficient watch.

The invaders came down the track

in a solid body, armed with cant-dogs, hick axes and clubs, and threatening for battle. At Donald's quick shout of warning his men dropped their tools and came on the run to form in a compact body behind him.

"Don't use your guns unless you have to," he warned, as he noticed several of them flash their revolvers.

Donald climbed quickly to the top of a large stump. In his left hand he held a stick of dynamite with fuse attached; in his right he held a match close to the dangling fuse. "Men!" he cried in a determined tone, "if you move forward one step I will throw this."

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. While a square yard of glass of ordinary thickness weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Stony Plain and District.

IT PAYS TO PAY CASH.

The Heichel appeal in the Golden Spike fire case is being heard, this week, in an Edmonton court.

The sale is reported of the Fielhaber farm at Inga, to Mr Wm Fuhr. The price is said to be \$6500.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year.

Good Luck, Lenn.

As we go to press, a wireless message from Blueberry informs us that Mr Lenn is staying home this coming Fast-nacht, next week. Lenn came to this decision after reviewing the various experiences he has had on previous Fast-nachts. Mr Lenn will, no doubt, take advantage of the occasion to celebrate another birthday by his own fireside, and he and his friends will have a merry time.

Good luck, Lenn! and if the roads are open that evening, maybe Jake and the Editor will be up to see you.

Walther League News.

Despite the severe weather on Sunday, a large number of local Walther Leaguers made the trip to the day's session at the W. L. Winter Conference, in Edmonton. All of the 16 present report having received great benefit from the topic study on Luther's Catechism by Rev H J Boettcher, as well as having had a good time at the social afterwards.

Final arrangements are being made by the W. L. for the beginning of English Lutheran Church services in town. A committee was elected at the last meeting, which is to have charge of the undertaking. Definite information will be announced next week.

Holborn Happenings.

The Novelty dance billed for tomorrow evening at Holborn Hall promises to be a popular event. It is under the auspices of U. F. W. A., and, judging by the reputation this organisation has for featuring good dances, the hall should be well filled when Barth's orchestra strikes up.

Wheat Pool News.

T Cleveland of Delacour, who raised over 50,000 bu. of wheat last year, has signed a Wheat Pool contract. He will seed 4000 acres this year.

When the 2c. per bu. farm storage payment came into effect recently, the receipts at the Pool elevators almost doubled. 200,000 bu. a day were received for some considerable time.

FEBRUARY—

- 8—Novelty dance by the Holborn U. F. W. A.
- 9—Rumely demonstration to be given in Stony.
- 12—Peter Unterschutz auction.
- 20—Nomination for Councilors in Municipal Districts.
- 22—Band's Whist Drive.

Demonstration Week.

This is Demonstration Week for local people, following the demonstration the Weather Lady had been giving us for some time previous.

The first feature was the three-day McCormick-Deering tractor school which opened Tuesday in the I. H. C. show-room, Edmonton. Mr Louie Wudel, the local I.H.C. agent, made a special effort to get local power farmers and others interested in this three-day free course, and was gratified on seeing the goodly number from this district which took advantage of the course.

The second event was the special presentation in Wudel's hall yesterday of the new Chevrolet Six, sponsored by Sommerfield & Mayer, who were assisted by experts from General Motors factory, Oshawa. The demonstration was supplemented by a fine motion picture, which proved to be of great interest to the good sized crowd present. The improvements noticeable in the New Chevy Six came as quite a revelation to those motorists present who had thought the ultimate had been reached in low-priced car construction.

The Advance Rumely Power Farming School, which opens here on Saturday next, should draw a good crowd, including those who were unable to attend the sessions in Edmonton the fore part of the week. This will be given under the auspices of Stony Plain Hardware, who are the agents for Rumely. Three sessions will be held—morning, afternoon, night. Those interested will find it well worth their while to be present at one or all of the sessions.

Coarse Grains Pool for This Year's Crops.

The announcement has been made by the directors of the Wheat Pool that they have decided to proceed with the formation of a coarse grains Pool, this to be operative for the 1929 crop.

Announcement will be made later on the actual kinds of coarse grains which will be dealt with. These will probably be oats and barley. It will be necessary for a grower to be a member of the Wheat Pool in order to participate in the new pool.

There has been a coarse grains pool in Manitoba and Saskatchewan for the past three years.

The present Alberta Wheat Pool machinery will be employed.

Spruce Grove News

The Grove district was well represented, this week, at the Dairymen's Convention being held in Edmonton.

A new proprietor has taken over the local barber shop. He is a graduate of an Edmonton college.

Rev C Keenan held services in St Joseph's Church on Sunday last.

Despite the weather conditions, the concert given last evening in Winterburn Hall under the auspices of St Joseph's Parish was well patronized.

Promoters from the Reindeer Investment Co. gave the burg a visit on Monday last, and sold a number of shares to local investors.
